Crystalens® is the premium IOL that provides unsurpassed vision quality across a more natural range. That’s because its proprietary Bausch + Lomb aspheric advanced optics are designed to deliver 100% of light, 100% of the time, in order to maximize contrast sensitivity, minimize visual aberration, and avoid the visual compromises of multifocal IOLs.

In a laboratory study of modulation transfer function (MTF) using a 3-mm aperture, Crystalens demonstrated enhanced resolution.

- Image quality is defined by the height of the MTF curve
- ReSTOR and Tecnis Multifocal IOLs were similar to each other in performance
- Crystalens showed improved performance over multifocal lenses, demonstrating potentially superior quality of vision

1. Data on file, Bausch & Lomb Incorporated. All IOL and MTF measurements were made at a 3-mm aperture, per the ISO 11979-2 standard.
It’s easy to get started with Crystalens®

- Certification is quick and easy
- Hands-on customer support is always nearby
- No up-front lens or consignment costs
- No certification courses to attend

**Crystalens Product Specifications Only:**

**Optic Diameter:** 5.0 mm  
**Shape:** Biconvex  
**Material:** Biosil

Crystalens® Accommodating Posterior Chamber Intraocular Lens  
**BRIEF STATEMENT**  
Rx only.

**Indications for Use:** The Crystalens® is intended for primary implantation in the capsular bag of the eye for the visual correction of aphakia secondary to the removal of a cataractous lens in adult patients with and without presbyopia. The Crystalens® provides approximately one diopter of monocular accommodation which allows for near, intermediate, and distance vision without spectacles.

**Warnings:** Careful preoperative evaluation and sound clinical judgment should be used by the surgeon to decide the risk/benefit ratio before implanting a lens in a patient. Some adverse events which have been associated with the implantation of intraocular lenses are: hypopyon, intraocular infection, acute corneal decompensation, and secondary surgical intervention.

**Precautions:** Do not resterilize; do not store over 45°C.

ATTENTION: Refer to the Physician Labeling for complete prescribing information.
